

**When to arrive:** This is a two-day class. Please arrive between 8:00 and 8:30 AM each day. If you are departing from Knoxville (TYS) Airport, please schedule your return flight no earlier than 5:30 PM on the final day of class.

**What to bring:** We will use the complete Iris M Motion Amplification system. If we have already shipped your system, then you will need to either have it shipped here prior to the class, or you will need to bring it with you to the class. If you are picking up your new system here, then you will not need to bring any equipment. \*For students traveling from outside the United States, we may be able to supply an Iris M system for your use during the class. Please contact RDI Training Department (+1 865 210 3641) to confirm equipment availability for your class dates.

**Dress Code:** Please wear long pants and closed toe shoes for the second day of class, as we will go “into the field” for some real-world experience. We will provide safety glasses and hearing protection.

**Meals:** Lunch will be provided here at the facility, along with coffee, soft drinks, bottled water, and snacks. We will also invite you to be our guest for dinner immediately following the first day of class.
